

Ginny Burman

I was born in Lincoln and moved around the country when I was first married. On the birth of my son I moved back to Lincoln where I have lived ever since. I have two children, son and a daughter and a grandson. I live with my cats which are rescue cats and they give me so much joy.

I have been a spiritual healer for over 30 years and started The Lincoln Healing Centre with another healer, who was my mentor, around 30 years ago.

I originally joined a Lincoln healing group who were a part of BAHA and then went onto join NFSH and became a Trustee for over 9 years. During that time I served as National Standards Officer and was instrumental in revising the code of conduct. I resigned in April 2012

I was invited to join The Holistic Energy Association and felt very honoured to be a part of the charity as I identified with the ethos of the organisation. I have had the honour of serving on the committee since its inception in 2012...

After being a director of a company for quite some time and a long career in administration and accounts I felt it was time to retire and I now spend my time working as a healer.
