

Mark Wainwright

I started my career in accountancy in 1961 eventually becoming a Fellow of the Association of Chartered Certified Accountants. My first employment was with a firm of auditors in the midlands dealing with a variety of small businesses but then moving on to becoming a management accountant for a public limited company in London. I was later employed as financial accountant for a family owned group of companies including a solicitors practice, two house-building companies, investment companies, a garage, a nursing home and a farm. After moving to Surrey I became self employed working for a variety of clients including a Harley Street consultant and a registered charity with a trading subsidiary.

A conversation with a friend led me to Woking Spiritualist church where I met my wife Jennifer and discovered healing. We joined a distant healing group at the White Eagle Lodge where we served for seven years and I am still a White Eagle lone healer now. Then came the National Federation of Spiritual Healers where I trained as a healer and later joined the board of trustees as financial director. In 2008 I left the board and became chair of a healing centre in Walton on Thames and this centre became the beginning of the Holistic Energy Association in 2012. Currently I serve the HEA, the Harry Edwards Sanctuary and the White Eagle Lodge and have had the pleasure of being registrar for a few weddings at the Harry Edwards sanctuary.
